

Airgap Zero Trust Enterprise

Shrink attack surface, lower costs, and improve business uptime with Airgap managed SaaS.

Built-In Zero Trust. Built-In Simplicity. Built-in Cost Savings.

Airgap modernizes Zero Trust security and networking services for the Enterprise.

Deployed as a managed SaaS, Airgap deploys in hours with built-in secure access, microsegmentation, and asset discovery.

Zero Trust Access

Prevent threat proliferation from users to machines. Enforce identity-based restricted access.

Zero Trust Segmentation

Perfectly segment every endpoint and instantly stop lateral spread.

Built-In Discovery and Visibility

Real-time accuracy for all assets with full east-west visibility.

Enterprises Trust Airgap with their Business-Critical Infrastructure

Tired of managing jump host farms? Get Airgap Disposable Jump Box.

SaaS/Managed Service

50% savings, per user or enterprise annual subscription licensing.

Enhanced Security

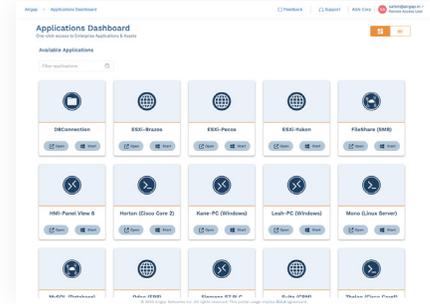

SSO/MFA identity check, end-to-end encryption, lockdown from User IP to Machine IP, and authorized access only.

Operational Simplicity & Scale

100% Agentless, compliant, regularly patched, and secured. Cloud/AWS scale.

Per-Application Customization

Custom templates to suit each app's requirements. New instances are spun up in the cloud on-demand.

Say goodbye to outdated ACLS/NAC with Airgap Ransomware Kill Switch.

Perfect Zero Trust

Stop lateral threat by segmenting every connected endpoint into a network of "1".

Segment the Impossible

Fully segment legacy servers, headless machines, and cloud-hosted assets.

Granular Incident Response

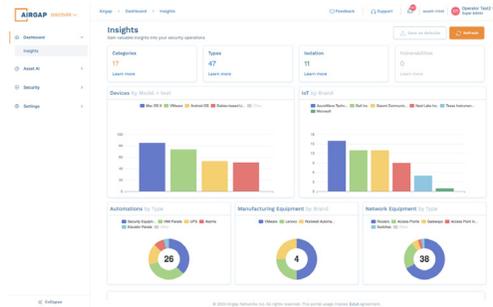

Built-in AI/ML monitoring, detection, and containment, down to a single endpoint.

Light Touch

Integrate into your running network without agents, hardware upgrades, or VLAN/IP readdressing.

Built-in Discovery & Visibility

Discover every device on your network, with AI/ML-driven network threat & performance monitoring at scale.

Airgap Benefits

30 day trial available

Fully managed SaaS

No agents

Hitless upgrades

Audit and compliance

Deploys in hours

Pay as you grow
