

ZERO TRUST ENTERPRISE

# Airgap Ransomware Kill Switch™

Perfectly segment every endpoint and instantly stop lateral spread.

Agentless Segmentation, Fully Managed.  
Deploys in hours.

Stop Lateral Threat

Built-In Zero Trust

Granular Incident Response

No Hardware Upgrades

Instant segmentation  
compliance

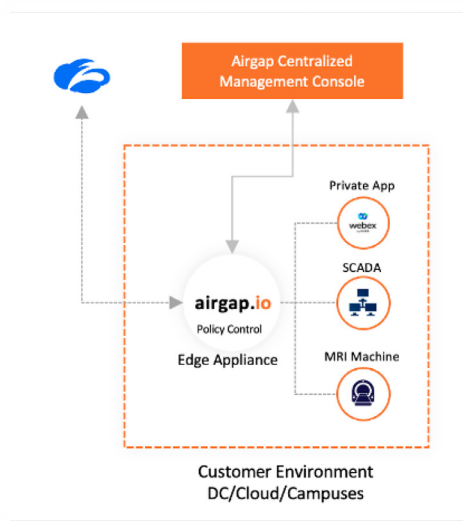

Enterprise-Friendly

## Airgap Ransomware Kill Switch™

Perfectly segment what agent-based solutions can't, including legacy servers, headless machines, and cloud-hosted assets.

Enterprises Trust Airgap with their Business-Critical Infrastructure

# Tired of complex and outdated ACLs/NAC? Try Airgap Ransomware Kill Switch™.

## Perfect Zero Trust

Stop lateral threat by segmenting every connected endpoint into a network of "1".

## Segment the Impossible

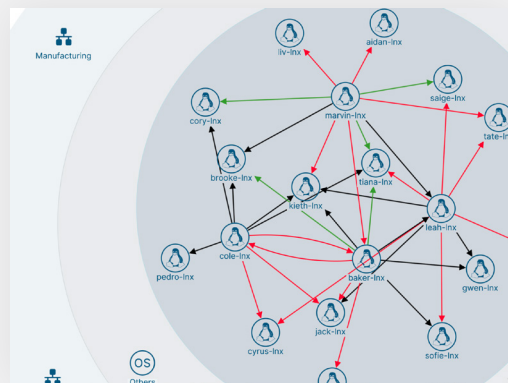

Fully segment legacy servers, headless machines, and cloud-hosted assets.

## Granular Incident Response

Built-in AI/ML monitoring, detection, and containment, down to a single endpoint.

## Light Touch

Integrate into your running network without agents, hardware upgrades, or VLAN/IP readdressing.

Built-in Discovery & Visibility

## Ransomware Kill Switch™ Features

Maintain safety of operations even if higher network levels are compromised
